

Continuing our exciting series on Do It Yourself (DIY) home boatbuilding projects headed up by naval architect Mark Bowdidge's BMD design studio. Mark has almost singlehandedly picked up the lines, lofting and inspiration from some of the great nav-archs of the past - thinking Hartley, Young, Hedges, Boden, Roberts, & Co - and brought DIY boatbuilding into the new millenium.

5.2m 'Cruise Control'

You asked, we listened.

The Cruise Control 5.2 was driven by customer demand for a strong, proven style fisherman offering a true balance of beauty, hardcore fishability, weather protection, performance and comfort in an exciting offshore trailerable package.

Featuring a 20-degree deadrise for stability combined with her deep entry, the Cruise Control 5.2 delivers a smooth ride through all types of seas,

creating a whole new realm of possibilities for weekend adventures. For the angler who desires the ultimate in a highly mobile fishing platform, the Cruise Control 5.2 is literally... in a class of its own.

The Cruise Control 5.2 is a cuddy cabin strip plank boat design incorporating the comfort needed for those family outings, whether it be swimming, diving or just enjoying the day, but at the same time satisfying the needs of those who are into serious

Will's superb photograph of young Cody, his 'leading hand' in the family's Cruise Control project. What a team !
