

This mid-sized cat has the distinction of being one of the most requested models we've had on the F&B boat test hotline over the past 12 months. Following the success of its big brother, the 7.0m Dominator Canyon Runner, many people looked for a smaller version of the big rig, hoping to achieve many of the virtues of the 7.0m craft in something more affordable, and more easily towed. Released at the 2003 Sydney Boat Show, this cat has languished in the shadow of the bigger model – but as you'll read, it's got a great future in its own right. Story by Peter Webster, pics by the F&B camera 'Cat team.
