STROKES

In Hindsight, Cleaner & Better In Every Way

It's nearly ten years since Honda Marine released the 75/90hp pigeon pair of 4-stroke outboards in Australia, and the 4-stroke revolution began. With these two engines came a new era in recreational boating. Our first officially "clean" outboards, the Hondas also offered unparalleled fuel efficiency, engine smoothness, reliability and longevity. For boating consumers everywhere, the 4-stroke revolution couldn't begin soon enough.

In this special report, editor Peter Webster looks back over nine turbulent years of 4-stroke evolution.
