

Ally Craft *4.75* *Centre Cab*

Introducing the first Australian test of the new 4.75 Ally Craft Centre Cab, one of the most innovative boat releases of 1998, and the first of the series of centre cabs that will underpin Ally Craft's continued growth into the next century. In this special report, Editor Peter Webster looks at the first of the three new models, choosing the smallest and least expensive of the three, fitted with the silky smooth 50 hp Yamaha 4-stroke outboard. It proved to be one of the most interesting test programs we've conducted this year.
