

POLYCRAFT Frontrunner 530

The 'plastic fantastic' stampede continues to gather momentum as Polycraft, the Bundaberg (QLD) based company digs deep and increases its investment program in new and innovative models. There's no doubt they are seriously challenging the way Aussie families have thought about boatbuilding, as they push polyethylene construction hard up against aluminium and fibreglass. However, in this special report, **Editor Peter Webster asks the question:** Are they pushing too hard, too fast, too soon?
