

Fisherman & Boatowner FIELD TEST

Millenium + Pressed Plate = Happy!

The significance of last month's test of the powerful, bluewater fishing Stacer 669 Centre Cab, followed up by this more family oriented Quinnie cuddy, based on the excellent Millenium pressed plate hull, really opens up the whole debate about which concept suits Aussie family fishos best. If that isn't hard enough - this model test re-opens the sterndrive Vs. outboard argument, too. But don't worry - pass the aspirin, and let's go boating !
