

Signature 485SF 'RIVALE' **

**Resin Injected Vacuum Assisted Low Emissions = Rivale !

We are going to hear a lot more about the “**Vacuum Assisted Resin Transfer Moulding**” boat building system in the months ahead, as most of the GRP manufacturers - such as the renowned Haines Signature Group here, cautiously embrace this exciting new, **low-emission**, minimal ‘footprint’ technology. But what does it all mean **in the real world** to punters like you and I? What are the benefits going to be for fishos? Editor Peter Webster jumped into the new Signature Rivale last month to learn more about it first hand.
