

Cruise Craft Executive 630

Nichols Brothers started building boats back in August 1946, launched the brand "Cruise Craft" in 1960, and introduced the first fibreglass Cruise Craft in 1967 - and from there, the rest is now modern history. Cruise Craft has become one of the top 2 or 3 brands in Australia, borders on iconic status, and enjoys a nationwide reputation for a superb finish and excellent quality of construction. Peter Webster and Ruth Cunningham joined forces to examine a remarkable craft.
