

SEAFARER VICTORY

- A CLASSIC 6.0m Cuddy!

The Seafarer Victory is one of Australia's true-blue contemporary classics. First moulded in 1992, the Seafarer Victory has been sold by the hundreds, and is in operation on just about every waterway in Australia. When it was first launched, it left most boating experts in awe of its handling, ride, seaworthiness and seakindliness. As editor Peter Webster, assisted by his son Jeff Webster (on camera for the externals) and Ruth Cunningham re-discovered, it's still one of 'the' benchmarks to this very day.
