

Profile 650H

- An Outstanding Trailerable Plate
Ally Sportsfisherman

Born in the Land of the Long White Cloud, All Blacks (All Whites, more recently!) and the home of some of the finest boat builders in the world, this new Profile 650H is now available in Australia through one of the most experienced dealers in the country. The dealer, Greg Nickerson, from Northside Marine in Brisbane, travelled to NZ to choose a brand of plate aluminium boats that measured up to Northside's long established knowledge of the standards Aussie fishos expect in their fair dinkum platies . . . *he got it right, too!*
