

Horizon 525 Scorpion

Another example of Horizon Boats' James family getting very determined with an extremely contemporary range of aluminium family boats that are second to none. Last month we had the amazing Tournament 500 for the dedicated lure casting fishos. This month, we're testing one of the best value family cuddies we've seen in years, and we've still got TWO more hot boat tests waiting in the wings . . . *Go Bob, Scotty, Robbie & Co!*
