

The **BIG** Haines Signature: 702 C

Developed from the 702 C Walkabout tooling so well known to F&B readers as our Project Boat "Take Two" for the last 2 years, the 702 C is the full cabin version with family cruising and fishing very much in mind. A big, roomy, deep cockpit GRP trailerboat, the 702 C has the capacity to cruise along the coast of Australia, explore the Whitsundays or fish the wide offshore canyons. In this special report, we test the prototype 702 C, fitted with the first V-6, 210 hp **EFI** MerCruiser in Australia, and produce some sensational figures from this outstanding boat and motor combination.

PRICE CHECK !

Fitted with the **EFI** V-6 210 hp MerCruiser, on a 2000T Mackay tandem axle trailer, the 702 C shown here, fully fitted, but without electronics, will retail for around \$65,000.
