

# The Majestic Noosacat 50 Walkaround

It's easy to run out of superlatives when you have to describe one of the biggest production GRP cats in the world - let alone what must surely be the biggest walkaround. The big cat will be used to fish and cruise in the Whitsudays and Great Barrier Reef waters from its home base in the new Mackay marina. With its extended hardtop, vast cockpit, airconditioned cabins and flybridge, twin 450 hp diesels vee drives to shafts, and the best of

everything, it is very close to the definitive 2004 "Queenslander" style fishing cruiser. It is, needless to say, very comfortable and fast.

The Noosacat 50 is now in full production, but Aussie owners will have to get in the queue quickly to get ahead of the export orders which are fast taking up the available slots.

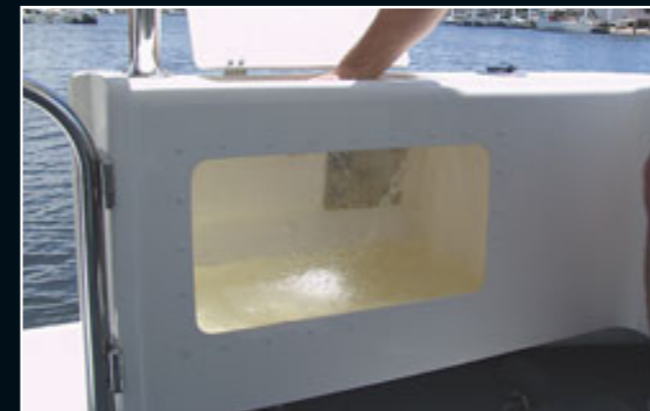

Enquiries to Wayne Hennig, Noosacat, (07) 5449 8888

Anyone for tennis? Note terrific freezer chest, and the excellent seating arrangement.

"Good morning, everyone, this is your Captain speaking . . ." Wayne Hennig on the flight deck.

See through live bait tank is a nice touch.

Lower helm is beautifully configured for the skipper.

Setting up the steering in a cat this big is not easy. Below: Desalinators are becoming more compact, and user friendly these days.

Being a walkaround, coming alongside single handed is easier when you can drive from the outside! Below: Polished dining table is a nice touch.
