

# Baz, Nick & Mackerel = BOWEN, QLD

About 'half way up the hill' between Brisbane and Cairns lies a very neat, tight knit and friendly coastal community called Bowen. It's been on the edge of greater things for many years, as just about everybody has worked out it is in a great part of the world, has a superb climate, grows wonderful tropical fruit by the tonne, fishes really well and well, one day soon, it might even be 'discovered'. In the meantime, for boating and fishing families, this is just one great place to wind back the clock, hug the kids, crack out the fishin' gear - and have a really great holiday. Neil Dunstan and John Turnbull checked it out for F&B families . . . . .
