F&B Australian Fishing Adventures

Fishing The Cairns Black Marlin Season

with Aaron Concord, Fishing Editor, F&B

For most Australian fishermen, fishing the Cairns heavy tackle season is to climb the ultimate fishing mountain.

Last season, F&B's Fishing Editor Aaron Concord joined Damon Olsen's charter business (Nomad Sportfishing) onboard the Kevlacat gameboat "Nomad", working from the Olsen's steel hulled displacement mothership moored off Lizard Island.

For Aaron, to fish the Cairns season was to fulfill a boyhood dream that he - and just about every other red-blooded male in Australia - has harboured most of his life. In this outstanding report, Aaron presents a real life view of what happened, what they did, the frustrations they shared, and of course, the incredible adrenaline rush of witnessing the unbelievable power and spectacle of Australia's exceptional grander marlin in action, in their element off the Ribbons, in far north Queensland.
